HAYEK STUDIOS

EXECUTIVE SUMMARY

HAYEK STUDIOS

HAYEK STUDIOS

ABOUT THE COMPANY

Who we are and what we aim to do

Hayek Studios is a New York–based wedding photography and videography studio specializing in cinematic wedding storytelling. The studio manages the full client journey, from inquiry and scheduling to gallery delivery, with a strong focus on communication, workflow efficiency, and timely service.

HAYEK STUDIOS

OBJECTIVE / GOAL

Short-term and long-term

Short-term and long-term Streamline client communication and scheduling workflows to reduce response time and improve booking efficiency. Long-term, build standardized SOPs for onboarding, gallery delivery, and post-wedding follow-ups to support scalable operations.

Key success metrics

Reduce inbox response time to under 2 hours, maintain accurate CRM records, achieve 100% on-time gallery delivery coordination, and improve client follow-up consistency across all active wedding projects.

Alignment with company vision

Support Hayek Studios' high-touch client experience by ensuring organized communication, seamless scheduling, and timely delivery throughout the wedding lifecycle while maintaining brand professionalism and reliability.

HAYEK STUDIOS

PROBLEM STATEMENT

What challenge are we addressing?

Managing high volumes of client inquiries, bookings, and post-wedding deliverables across multiple platforms creates workflow gaps, delayed responses, and inconsistent follow-ups. Without centralized tracking and standardized processes, important client communications, gallery timelines, and onboarding steps can be missed, affecting both team efficiency and the overall client experience.

HAYEK STUDIOS

PROPOSED SOLUTION / STRATEGY

Clear explanation of the solution

Implement a centralized workflow system to manage inquiries, bookings, contracts, and post-wedding deliverables in one place. Standardize onboarding, automate follow-ups, and use structured timelines for galleries and client communication to ensure consistency, faster response times, and a smoother experience for both the team and clients.

HAYEK STUDIOS

MARKET OVERVIEW

Market size and segmentation

01

The New York wedding market is large and premium-driven, with couples investing heavily in photography and cinematic videography for full-day coverage and curated albums.

Growth trends

02

Demand is rising for hybrid photo-video packages, fast turnaround times, and social-media-ready highlight films, increasing the need for efficient production workflows.

Target audience profile

03

Primary clients are engaged couples aged 20–60 seeking luxury, storytelling-focused visuals, seamless communication, and clear delivery timelines.

Key competitors (brief)

04

Compete with boutique wedding studios offering cinematic edits, personalized client experiences, and strong Instagram and referral-based lead generation.

HAYEK STUDIOS

FINANCIAL HIGHLIGHTS

Hayek Studios operates on premium wedding packages with strong margins driven by full-day coverage, album add-ons, and highlight films. Consistent bookings and referral clients support predictable monthly revenue and seasonal peak performance.

HAYEK STUDIOS

IMPLEMENTATION TIMELINE

Project milestones or phases

Phase 1: Website UX audit and booking flow redesign
Phase 2: CRM pipeline setup and automation
Phase 3: Gallery delivery workflow optimization
Phase 4: Performance tracking and reporting

Tasks and expected delivery dates

Weeks 1–2: Research, audit, and user journey mapping
Weeks 3–4: CRM integration and template setup
Weeks 5–6: Client portal and gallery automation
Week 7: Testing, training, and launch

HAYEK STUDIOS

RISK AND MITIGATION

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed at ipsum vitae lacus lobortis lacinia. Donec tristique arcu massa, at pharetra tortor feugiat non.

READ MORE

- **Potential risks or barriers**

  Manual booking processes may cause delays, double bookings, and missed client inquiries during peak wedding seasons.

- **Mitigation strategies**

  Centralize cloud storage, apply structured folder systems, and automate gallery delivery workflows.
